

## HEAD OFFICE

**Angers, France**

## KEY FIGURES

In Auvergne-Rhône-Alpes:

- > 36 positive energy territories for green growth (TEPOS-CV), covering 5 million inhabitants in the region
- > 14 Zéro Déchet Zéro Gasillage (ZDZG - zero waste) territories for 55% of the region's population
- > more than 90 wood-fired heating installations financed by the Fonds Chaleur (17% of French operations) contributing to renewable energy objectives
- > leading region for the number of projects supported by the French government's Investissements d'Avenir (Investments for the Future), an ADEME-managed program

## ACTIVITIES

The Environment and Energy Management Agency (ADEME) is a public institution under the supervision of the Ministry of Ecological and Solidarity Transition and the Ministry of Higher Education, Research and Innovation.

### Strategy

The Agency contributes to the implementation of public environmental, energy and sustainable development policies. The agency provides companies, local and public authorities, and the general public with expertise and advice, enabling them to further their environmental approach. It helps finance projects from research to implementation, in the following areas: waste management, soil conservation, energy efficiency, renewable energy, air quality and noise abatement.

### Sectors

Circular economy, renewable energies, energy renovation of buildings, mobility, transport of goods and rebuilding the city over the city are all sectors contributing to achieving the ecological and energy transition objectives. ADEME is partnering with public and private stakeholders committed to this ambition.

## ADEME IN AUVERGNE-RHÔNE-ALPES

The forty or so employees of ADEME's Auvergne-Rhône-Alpes Regional Department support circular economy (prevention, eco-design, recycling and recovery), sustainable cities and territories (urban planning, mobility, wasteland, air) and energy transition (energy renovation of buildings and renewable energies) projects by local authorities and businesses.
