ACTIVITIES

Air Liquide is the world leader in gases, technologies and services for the manufacturing and healthcare industry. Present in 80 countries with approximately 65,000 employees, the Group serves more than 3.5 million customers and patients. Oxygen, nitrogen and hydrogen are small molecules essential to life, matter and energy. They embody Air Liquide's scientific area of expertise and have been at the core of the group's business since its creation in 1902. Air Liquide strives to be the leader in its industry, to be competitive over the long term and to contribute to a more sustainable world. Its customer-focused transformation strategy is aimed at long-term profitable growth. It is based on operational excellence and high quality investments, as well as on open innovation and the network organisation implemented by the Group on a global scale. Thanks to the commitment and inventiveness of its employees to meet the challenges regarding energy and environmental transition, health and digital transformation, Air Liquide creates even more value for all its stakeholders.

AIR LIQUIDE IN LYON VALLÉE DE LA CHIMIE

As a Group subsidiary, AIR LIQUIDE FRANCE INDUSTRIE supplies gas, equipment and services to numerous sectors in the region: industrial chemical and petrochemical entities, analysis laboratories, research centers, SMEs and SMIs. Locally, nearly 300 employees produce and distribute gas and provide its customers with commercial and technical support.

Major industrial industrial in the Vallée de la Chimie, consuming large volumes of nitrogen and hydrogen, are connected by pipeline to the AIR LIQUIDE FRANCE INDUSTRIE plants in Feyzin and Belle-Étoile.

In Feyzin, AIR LIQUIDE FRANCE INDUSTRIE also has a gas cylinder packaging and delivery site.

Thanks to this strong local presence, AIR LIQUIDE FRANCE INDUSTRIE is more than a supplier, it is a local partner.
