

HEAD OFFICE

Lyon, France

KEY FIGURES

> The CCI supports 110,000 companies in the Lyon/ Saint-Étienne/ Roanne metropolitan areas, including 10,000 federated in local Business Clubs, 3,000 in groups and clusters and 300 in leading positions on the market

ACTIVITIES

The Lyon Metropole Chamber of Commerce and Industry aims to work as closely as possible with businesses in order to contribute, together with all the economic players in the region, to raising Lyon and its region to the rank of a major European metropolis of excellence.

The metropolitan CCI is committed to the competitiveness of companies and the attractiveness of the territory, through its three missions:

- > Represent companies and shopkeepers and be their spokesperson in dealings with public authorities.
- > Accompany the growth of companies at all stages of their development, from creation to handover.
- > Contribute to the management of major facilities useful to the development and attractiveness of the region: Lyon airports, Eurexpo, EMLYON Business School, Musée des Tissus and Musée des Arts décoratifs.
- > Optimize regional planning through major road, rail and river infrastructures and in a fruitful partnership in the main economic areas, including the Vallée de la Chimie.

In this territory, it has set itself several strategic priorities:

- > Maintaining its dynamism and industrial coherence.
- > Supporting the territory's projects, in particular through the Appel des 30!
- > Contributing to the diversification of molecular processing and the extension of upstream and downstream value chains in collaboration with the Business Energy Cluster.
- > Contributing to discussions on a multimodal approach to the area's accessibility.
