euros (prospects)

## ACTIVITIES

ELKEM SILICONES, formerly BLUESTAR SILICONES, is a global leader in fully integrated silicone manufacturing and offers a comprehensive range of silicone products for very diverse markets, such as energy, electronics, aeronautics, automotive, construction, and cosmetics.

## ELKEM SILICONES IN LYON VALLÉE DE LA CHIMIE

The ELKEM SILICONES Saint-Fons site produces silicones from silicon, with two distinct product families:

- > major fluids and elastomers for the construction, wellness, elastomers, electrical insulation and fluids markets;
- > specialty products for the textile coating and airbags, adhesive paper, health, molding, sealing and bonding, and specialty fluids markets.

ELKEM SILICONES is signatory of the Partnership Charter for the Development of the Vallée de la Chimie since 2014 and a Appel des 30! partner.
