Paris, France

KEY FIGURES

- > Worldwide:
154,950 employees
- > France:
74,000 employees
- > Lyon Metropole:
around 3,200
employees
- > 2017 turnover:
65 billion euros

ACTIVITIES

Global energy operator and expert in 3 sectors:

- > Electricity.
- > Natural gas.
- > Energy services.

ENGIE places responsible growth at the heart of its business, in order to take up the major challenges of energy transition towards a low-carbon economy; access to sustainable energy, mitigation and adaptation to climate change and the rational use of resources.

The Group provides individuals, cities and businesses with highly efficient and innovative solutions largely based on its expertise in four key sectors: renewable energy, energy efficiency, liquefied natural gas and digital technology.

ENGIE IN LYON VALLÉE DE LA CHIMIE

- > **GAYA demonstrator in Saint-Fons (commissioned in 2016):** ENGIE manages the GAYA project, which brings together the expertise of 11 partners around a common aim: to develop 2G biomethane on an industrial scale. The Saint-Fons demonstrator will allow experiments to be run on an innovative energy sector for very high-yield biomethane production to optimize and establish the use of biomass as a renewable energy.
- > **The Compagnie Nationale du Rhône's sites:**
 - The Lyon Edouard Herriot Port.
 - The hydrogen recharging station at Lyon Edouard Herriot Port.
 - The Pierre-Bénite lock and dam, and hydroelectric power station.
 - The small Pierre-Bénite hydroelectric power station.
 - The Solaize-Sérézin-Ternay industrial port site.
 - The Loire-Saint-Romain industrial port site.
